## **IHRA Tech Department update for Stock and Super Stock Eliminator**

March 25, 2026:

### **Super Stock Eliminator**

After an in-depth discussion with some Manufactures, Racers and Engine builders, the IHRA Tech Department has made the decision to allow Titanium Valves to be used in Super Stock Eliminator effective 03/25/2026. The online rulebook has been updated to reflect this change.

Thank you,

IHRA Technical Department.
